**Summary of reasons
for classification:**

The computer moving image file *Video_020707_003.3g2* is classified as:
Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years.

The file is a short clip of a young woman exposing her breasts in a sexualised manner. A restriction to an adult audience is appropriate. While the young woman in this computer moving image file generally presents as youthful, her chronological age is ambiguous. The brief duration of the file does not give any other indication to suggest that she is a child or young person.

The classification of this publication interferes with the freedom of expression. However, given the explicit content of the publication, a restriction to adult viewers is a reasonable and demonstrably justified limit on its availability. The classification achieves the objective of preventing injury to the public good without unduly infringing freedom of expression.
